

General information about Palawan and our services

Palawan is considered the jewel of the Philippines and voted many times as the [most beautiful island in the world](#) with [crystal clearest waters](#).

The Philippines has more than 7,000 islands and best visited a region at a time, otherwise you spend too much time and money traveling from one area to the next. Palawan is a good first visit, because there is so much to see.

Here is a **quick overview** of our services:

- private single day boat tours in [El Nido](#) and [Coron](#)
- [multiday tours around Coron only](#)
- joiner group and private tours for [scuba diving](#) in Coron and [Sibaltan](#) (near El Nido)
- [marriage proposal or honeymoon tour](#)
- [private multiday boat tours between El Nido and Coron](#) (during which you can rent a [kayak](#), [speargun](#), [wakeboard or wakesurfboard](#), or learn how to catch fish the local way)
- [joiner multiday group tours between El Nido and Coron](#) (you can join a group with a set schedule or start your own group with your own schedule and itinerary)
- [combination package](#) covering all of the above
- [Port Barton](#)
- [Balabac](#)

If you have roughly only seven days, we suggest flying into [El Nido](#) or [Coron](#) (we prefer starting in El Nido), where we offer single day private boat tours, and spend about four days on a [multiday boat expedition](#) traveling from one to the other (there are [82 islands](#) along the way). You can then fly out the other back to Manila or see some more if you have the time. The expedition includes a private van transfer to/from [Sibaltan](#), on the opposite end of the peninsula from El Nido and also worth visiting if you like to get to a long stretch of beach away from the tourist crowd.

Sibaltan beach

The price of the private (you can also [join or form your own group](#)) multiday expedition depends on the number of people and days ([price calculator](#)), but generally for two people and four days would cost **\$2,400usd** and include [accommodation](#) (which can be upgraded to fancy resorts), tons of food of your choice, entrance fees to [all the sites](#),

and a complimentary case of beer or bottle of red or white wine to get you going (there are lots of shops to buy more along the way). You also have the option to rent kayaks, spearguns and [wakeboards](#). If you have your own gear we can even take you to [virgin kitesurfing territory](#).

Our tours are generally by the traditional banca boat ([various sizes](#)), but can also be by [speedboat](#) or [catamaran/sailboat/yacht](#). You can also combine this with a [marriage proposal tour or honeymoon surprise](#)!

Check out our [excellent reviews](#)!

Please take note of our [cancellation policy](#).

[Weather forecasts](#).

If you have more time you can see more. For example, the country's most famous resort destination of [Boracay](#) is not far from Coron. Lots to see there and worth spending at least a few days.

Or you can head south to [Balabac](#), possibly checking out [Port Barton](#) and Sabang for a [private underground river tour](#) on the way. We do not recommend checking out the standard underground river tour because it is very time consuming and absolutely inundated with tourists. Nothing worth seeing in Puerto Princesa.

Here are some sample pics of what you will experience, otherwise you can find more on our [photos page](#) or [instagram account](#).
